PREFACE

Publicly owned facilities (City and MDC) in active use within the City are listed. Additional data including address, year built, etc., is also listed as applicable and available. The list is intended to be complete except for certain specialized facilities such as City Hall, Faneuil Hall, and other central office and supply buildings.

The arrangement is by type of facility. For each type there is a further subdivision by district. Buildings housing several functions will be listed under each function and therefore will appear in two or more places.
